| Gregorian Calendar abolished at Sukkot (Tabernacles) in 2027 (5882) | | | | |

5878: Rosh Chodashim is the '1st of month one' (24 April 2024).
The '3rd of month one' (Apr 26) is the first seventh day Sabbath,
and every seven days for the next six months.

5879: Rosh Hashanah is the '1st of month seven' (17 Oct 2024).
The '3rd of month seven' (Oct 19) is the first seventh day Sabbath,
and every seven days for the next six months.

5879: Rosh Chodashim is the '1st of month one' (13 April 2025).
The '3rd of month one' (Apr 15) is the first seventh day Sabbath,
and every seven days for the next six months.

5880: Rosh Hashanah is the '1st of month seven' (7 Oct 2025).
The '3rd of month seven' (Oct 9) is the first seventh day Sabbath,
and every seven days for the next six months.

5880: Rosh Chodashim is the '1st of month one' (2 April 2026).
The '3rd of month one' (Apr 4) is the first seventh day Sabbath,
and every seven days for the next six months.

5881: Rosh Hashanah is the '1st of month seven' (26 Sept 2026).
The '3rd of month seven' (Sept 28) is the first seventh day Sabbath,
and every seven days for the next seven months (a leap year).

5881: Rosh Chodashim is the '1st of month one' (21 April 2027).
The '3rd of month one' (Apr 23) is the first seventh day Sabbath,
and every seven days for the next six months.

| On the morrow (next day) is Rosh Chodashim irrespective of what the Gregorian calendar 'thinks' to change laws & times. The next morning at sunrise is the day of the Full New Moon (keseh-fullness of Light) Psalm 81:3 & Prov 7:20) for the year (Ex 12:2). Return to the (re-) newed start found in Gen 1:14-19 on weekday five. The two halves is the only cycle that allows the calendar to be performed exactly the same as it appears in scripture year after year. There is NO alternative cycle to maintain the moedim on their pre-ordained weekdays. | | | | | | 30th 384 Go to Rosh Chodashim |

5882: Rosh Hashanah is the '1st of month seven', weekday 5 (15 Oct 2027)
The '3rd of month seven' is the first seventh day Sabbath, and every seven
days for the next six months to cleanse the land.

5882: Rosh Chodashim is the '1st of month one' (9 April 2028).
14th Pesach Sheni the second Passover in the land (22 May 2028)

Romes calendar should now be obsolete. See Jacobs trouble option 2,
ebook 3 evidence 60 (diagram, year 5883, month 4 to year 5885)

‘The conclusion to the ‘Qodesh Calendar discovery’ exposes:

1. the seventh day Sabbaths are found fixed to certain ‘days of the month’
2. every ‘day of the month’ is fixed to certain ‘day of the week’
3. the calendar is found in Acts after the death and resurrection of Messiah
4. this is the lost calendar of Lam 2:6 the covenant calendar of Abraham
5. no other calendar of man has the true record¹ of Moses & his successor²

The true seventh day Sabbaths rarely align with Rome's 7th day. The belief that Saturday is a ‘continuous uninterrupted cycle of weeks’ since creation or Moses is false! The chronological evidences prove both Christianity and Judaism have never used this calendar even found in the ‘inter-testament era. The early congregation (Acts 7:38) the House of Judah and the gentiles (gerim) House of Israel are the inheritors of the covenant oath. Judaism has made a calendar union (idolatry), placing the Lev 23 moedim over the whore of Babylon’s Gregorian calendar months & 7 day week.

The above chart with ‘Month 1 & Month 7’ dates are fixed ‘time appointed’ (keseh-full new moon) in Jerusalem, Israel. Jerusalem time comes first, and we observe closest to that time where we are scattered. Rosh (Chodashim or Rosh Hashanah) is always found to start on weekday five. This proves that Genesis ‘let there be lights’³ and ‘made two great lights’⁴ is the full new moon⁵ (keseh) not the ‘covered moon’ (kasah) of heathen traditions. Psalm 81:3 has been altered in these last days to now read ‘in the covered’, to uphold the profane use of the crescent moon. The crescent moon ‘encircling a star’ is the sign of Satan, the moon god ‘hubal’ of the kabba. This crescent symbol is also found in the centre of Rome’s ‘monstrance’, practised in Judaism & Islam, & city of the crescent moon called Jericho.

We use the Gregorian Calendar ‘dates & weekday names’ as reference ONLY as we transition our way out of Mystery Babylon and into the Qodesh (set-apart) Calendar. No other calendar can witness the 100’s of chronological evidences found in Torah and scripture, in fact far too many to write about.

-
- 1 John 5:10 He that believeth on the Son of God hath the witness in himself: he that believeth not God hath made him a liar; because he believeth not the record that God gave of his Son. (G-d says those who profess other calendars are liars).
 - 2 Deut 18:15-19 ‘who is the root of Jesse’ (Luk 24:27) and Gen 3:15 the seed of Abram
 - 3 Gen 1:14 & 15 ‘lights’ (plural) meaning the sun and the moon are set (not bara-created)
 - 4 Gen 1:15 the greater light to rule the day, moon is lesser, a great light to rule the night:
 - 5 Psa 81:3 Blow the horn at the new moon, at the full moon for our feast-day (JPS 81:3)

On the odd occasion the calendar does not transition smoothly from days 354 (or 384) to Rosh Chodashim, but there is never a problem at Trumpets. What are the facts and how do we transition into the next six month period (cycle)? If the time of the full moon occurs after sunrise and before the next morning that day is considered ‘the day of the new moon’. It is that simple, as ‘day’ starts in the morning at sunrise and ends at the next morning.

There is too much evidence in scripture that a day is not evening to evening. See e-book one for the chronological evidences & day start verses.

The full new moon rises in the east soon after sunrise on weekday 5. At Rosh Chodashim (weekday 5) we start our count to Passover, when for 7 days we eat Unleavened bread (erev to erev), and on the end of the seventh ‘day’ (at erev) the festival ends. This in no way alters ‘day start’ in the morning. Therefore Sabbath is 12 hours from sunrise to sunset (as the scriptures teach).

No commandment or statute is given to change, intercalate, postpone or defer the day of the full moon. A workable solution can be found within creation week counting from the last calendar day #354, when we cycle back to the fixed cycle (calendar) starting at Rosh Chodashim on weekday 5.

1. If ‘Rosh’ Chodashim is one day early we observe it as a Sabbath.
2. If ‘Rosh’ Chodashim is one day late, we observe the seventh day Sabbath and the day of Rosh Chodashim would be considered a normal work day. The 3rd of month 1 (and third of month 7) is the first seventh day Sabbath, and every 7 days thereafter for the next six months. The rule is, ‘no two Sabbaths are to end up side by side’. Every calendar known to man exhibits this fault. YaHUaH has stated His Sabbaths are to be ‘set-apart’ convocations, therefore the QC is the Word and are always found ‘set-apart’.

Those who trust in and use any ‘alternative’ calendar will find no safety, refuge, healing or safety (as the Israelites did in Exodus 9) from the coming plagues and judgements in these last 490 day tribulation called ‘Jacobs Trouble’. The second exodus (Isa 11:11-12) will find those who transgress the Torah will have to make their way back to the land by ship & by foot. Those who transgress this set-apart calendar will not be gathered as per Math 24:31
